

FREEDOM FERTILITY PHARMACY

Leading the way in fertility treatment

Freedom Fertility Pharmacy®, a Cigna specialty pharmacy, exclusively supports customers undergoing fertility treatment, and is committed to superior service, cost savings and support for our customers.¹ Infertility is a common issue, with 33% of American adults reporting that they or someone they know has used some type of fertility treatment in order to try to have a baby.² And multiple studies have found that infertility can increase stress, depression and anxiety levels.³ Providing our customers with peace of mind during what can be an emotional, physically and financially taxing experience, is at the core of what Freedom Fertility Pharmacy does.

Specialized Fertility Services for our customers

Freedom Fertility Pharmacy has provided clinically in-depth infertility services for 25 years, and operates as part of the Accredo Therapeutic Resource CentersSM (TRC) model. Just like the other TRCs in Accredo's specialty pharmacy network, Freedom is comprised of fertility-trained pharmacists and teams who have extensive knowledge and experience in handling these complex medications.

As a leading provider of pharmacy services for infertility, Freedom Fertility is licensed in all 50 states, is URAC accredited, and our registered pharmacists average more than 10 years of experience in fertility therapy.⁴

25 YEARS
of exclusive fertility focus

Together, all the way.®

Committed to safety and support

Our pharmacists work in close collaboration with our customers' physicians to help provide the best possible experience. Freedom clinicians are also available to our customers as a resource throughout their care.

OVER 50%
of packages ship within 24 hours⁵

- › Stock, dispense and ship specialty and non-specialty medications
- › Dedicated, one-on-one customer support
- › 24/7/365 clinician access
